

A close-up photograph of two interlocking metal gears. The gear in the foreground is slightly out of focus, while the one behind it is sharper. The words "management" and "change" are embossed on the teeth of the gears, following their curved path.

## management change

# IMPROVE COMPLIANCE AND PRODUCTIVITY WITH MOC SOFTWARE!

### **RISK REDUCTION**

Mitigate risk by proactively identifying organizational changes and ensuring controls are implemented prior to changes taking place

### **IMPROVED PRODUCTIVITY**

Simplification and automation of MOC processes reduces manual activities, wasted time and errors.

### **FAST TURNAROUND**

Manage your change process in real-time with easily accessible forms and automated notifications.

### **STANDARDIZED APPROACH**

Consistently and thoroughly review each type of facility change (process/equipment changes, document/procedure changes, product changes, etc.) with customizable and centralized forms.

### **IMPROVED ACCOUNTABILITY**

Improve tracking and verification of follow-up actions associated with the change management process with comprehensive task tracking.

### **TRANSPARENCY**

Personnel with appropriate permissions can quickly view review workflows, the review criteria and the status of related action items.

### **COMPLIANCE ASSURANCE**

Our web-based platform enables you to quickly demonstrate compliance with the management of change requirements of OSHA's Process Safety Management (PSM) requirements as well as other regulations and international standards.

### **AUDITABLE**

Each update to a change request is tracked to provide a comprehensive audit trail.

### **PAPERLESS**

No longer email paper forms or spreadsheets through the office to facilitate reviews and obtain approvals. With our Management of Change Software, all aspects of the change management process are on-line and readily accessible.

### **RAPID DEPLOYMENT**

Create your site's customized change management program in a day (versus weeks or months).

User-friendly Management of Change (MOC) Software that helps you efficiently review workplace changes with streamlined review forms, automated notifications and comprehensive reporting.
